

AN ECOSYSTEM OF **SCIENCE, TECHNOLOGY, INDUSTRY**
IN LIFE SCIENCES

bio[®]
expo

23-25 OCTOBER 2024
ISTANBUL LUTFI KIRDAR
CONGRESS & EXHIBITION CENTER

SYMPOSIUM | FAIR | PANEL | SEMINAR | WORKSHOP | NETWORK

AN 'ECOSYSTEM' AS A LIFE SCIENCES PLATFORM:

■ Ecosystem

Covering all scientific disciplines, sectors and industries in the Life Sciences field; BIOEXPO, which offers new products and technologies, industrial knowledge sharing, academic and scientific knowledge in these fields as a set of simultaneous events with an interactive approach, creates a science, technology and industry-based 'ecosystem' in the field of life sciences with all this integrated systematics.

■ Platform

At BIOEXPO; companies that develop products and technologies, scientific and academic institutions, and public regulation institutions that direct sectors and technology are involved together. Experts and professionals from all levels of relevant sectors and industries find information sharing and business development opportunities at events on this platform.

■ Network

With its scope of fairs, exhibitions, workshops, training programs, symposiums, conferences and seminars, panels, industrial product and technology presentations, BIOEXPO is a real 'network' environment for all disciplines.

■ Sectors

This year, different categorical presentations and exhibitions containing products and technologies in the Life Sciences industries can be watched at BIOEXPO:

- ▶ Biotechnology
- ▶ Laboratory technologies
- ▶ Cleanroom technologies
- ▶ Pharmaceutical industry technologies
- ▶ Chemical industry technologies

This year, BIOEXPO will be held with all its components on 23-25 October at Istanbul.

■ BIOTECHNOLOGY

BIOTECHNOLOGY, LIFE SCIENCES
AND INDUSTRIES FAIR

- MEDICAL BIOTECHNOLOGY,
- FOOD BIOTECHNOLOGY,
- AGRICULTURE & LIVESTOCK BIOTECHNOLOGY,
- ENVIRONMENTAL BIOTECHNOLOGY,
- INDUSTRIAL BIOTECHNOLOGY

Biotechnica 2024, which is open to the participation of all organizations that produce projects, develop and supply products and services in these five basic application areas of biotechnology, is a real business development and information platform.

The programs within the scope of the Symposium, which is held every year at BIOEXPO in the field of "Pharmaceutical Biotechnology", which is among the most important biotechnology applications within the scope of Life Sciences, are continued at 2024 BIOEXPO with current developments.

■ Products and technologies at BIOEXPO/Biotechnica:

- Bioprocess engineering
- Bioanalytical
- Bioinformatics
- Industrial biotechnology
- Biotechnology services

■ LABORATORIES

Knowledge, techniques and product technology of analytical systems and LAB industry directed towards different sectors. It completely falls within the scope of Analytech 2024. From scientific research to laboratory environments, measurement, Organizations that offer products and services in all areas of expertise, from imaging and analysis technologies to industrial processes, will meet with experts and users of this specific field in Analytech halls. The fair will present participating products and services to its visitors under several main headings.

EXPO Analytech

ANALYSIS AND LABORATORY
TECHNOLOGIES FAIR

■ Products and technologies at BIOEXPO/Analytech:

- Analytical devices
- Bioanalysis & Diagnostics
- Optical devices
- Analytical chemistry
- Data systems
- LAB project design, installation, furnishing
- Laboratory benches
- Laboratory devices & Equipment
- Automation and robotic systems
- Laboratory diagnostics
- Materials, chemicals and reagents
- Laboratory occupational safety & protective equipment
- Material testing and diagnostic systems
- Measurement technologies
- Quality control systems
- Analyzer qualification
- Laboratory device calibration and validation

■ CLEANROOMS

From project planning to investment; Cleanroom 2024, which brings together the demands of facility managers and Cleanroom professionals and the product and service technologies of the Cleanroom industry in the entire process from production to control and management, and is Turkey's only expertise platform in this field, offers Cleanroom services in all areas from medicine to food, from the defense industry to the electronics industry, from the health sector to universities and offers solutions to your needs.

■ Products and technologies at BIOEXPO/Cleanroom:

► STRUCTURAL PRODUCTS AND SYSTEMS

- Modular systems
- RAB systems
- Laminar cabins
- Microbiological safety cabinets
- Passthrough units
- Floor materials
- Wall panels and coverings
- Ceiling systems
- Lighting systems
- Door systems
- Lock systems
- Furnishing equipment
- Stainless Steel Equipment

► TECHNICAL SYSTEMS AND COMPONENTS

- Air conditioning, ventilation and filtration units
- Hydraulic, vacuum and pneumatic systems
- Measurement system and equipment
- Imaging systems and devices
- Integrated security systems
- Automation systems
- Disinfection and sterilization systems
- Sterile environment installation
- Pure water and DI water systems

► LOGISTICS PRODUCTS AND EQUIPMENT

- Cleanroom clothing and consumables
- Cleaning products and equipment
- Biopharmaceutical single-use disposable products
- Microbiological equipment
- Process equipment and accessories
- Filtration technologies

► SERVICES

- Consultancy services
- Testing and certification services
- Validation services
- Engineering and software services
- Management and maintenance

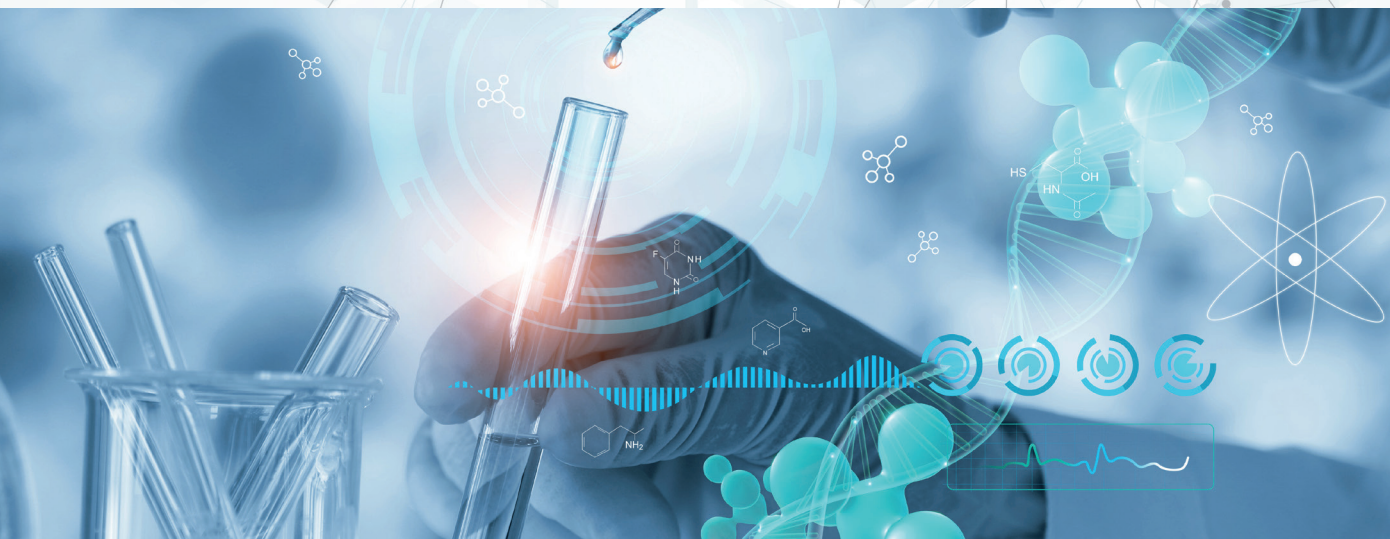

■ PHARMACOLOGY

Advanced technologies, developments, applications and know-how...

In the pharmaceutical industry, from active ingredients to finished products and formulations, from industrial equipment and technology to production processes and services... All experts who produce technology, equipment and services for applications within the scope of the pharmaceutical industry will come together at PharmaNext 2024, the innovative specialized fair and symposium of the subject in Turkey.

PHARMACEUTICAL INDUSTRY
AND TECHNOLOGIES FAIR

■ Products and technologies at BIOEXPO/PharmaNext:

API

- ▶ Active pharmaceutical raw materials and components
- ▶ Natural extracts
- ▶ Biochemistry

TECHNOLOGY / EQUIPMENT

- ▶ Biotechnology
- ▶ Nanotechnology
- ▶ Pharmaceutical manufacturing equipment
- ▶ Analytics and LAB technologies
- ▶ Cleanroom technologies
- ▶ Sterilization technology
- ▶ Medical devices and technologies
- ▶ Quality, testing and control technologies

PRODUCTS

- ▶ Medical drugs (reference / generic)
- ▶ Industrial drugs

PROSESS AND SERVICES

- ▶ Contract manufacturing services
- ▶ Packaging & labeling
- ▶ R&D & clinical research & formulation
- ▶ Certification services

VISITORS AT BIOEXPO

■ Experts, Professionals

- Industrial analysis experts
- Biotechnologists
- Laboratory professionals
- Quality control and laboratory professionals
- R&D departments and managers
- Production process managers
- Biomedical engineers and specialists
- Chemical industry and biochemistry experts
- Microbiology and molecular biology experts
- Laboratories
- Medical professionals
- Pharmacologists
- Academics

■ Sectors, Industries

- Laboratories
- Cleanrooms
- Medical technology and industry
- Healthcare facilities
- Clinical diagnostics
- Healthcare industry
- Agricultural industry
- Food industry
- Chemical industry
- Environmental technologies and industry
- Petrochemical industry
- Mining industry
- Cement industry
- Forensic medicine departments
- Cosmetic industry
- Automotive industry
- Textile industry
- Energy & Electrical & Electronic industries
- Building/construction industries
- Aviation industry
- R&D facilities

■ Administrative and Public Institutions

- Universities
- Ministries and affiliated institutions
- Public health laboratories
- Tübitak MAM
- Higher Institutes of Technology

PARTICIPATION WITH A STAND

EXHIBITION SPACE (MINIMUM 15 M²)

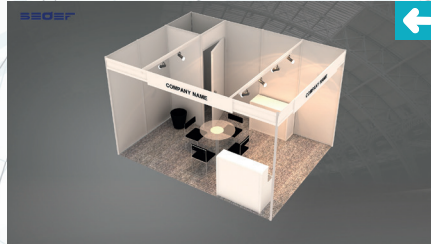

It is the bare floor area where you can set up your original stand construction and decoration. Free space allocation is applied for contracted participation of at least 15 m².

Participants who will implement their own stand construction in an empty area, have their application projects approved by the fair management in advance and carry out the stand construction and installation.

Empty exhibition space participation fee:
210 Eu/m²+kdv

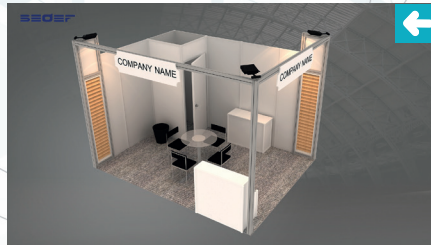

Participants can choose among Model-1, Model-2 and Model-3 stand types and request installation for an additional fee.

EXHIBITION AREA + INSTALLATION MODULAR STAND MODELS:

EXHIBITION SPACE + MODEL-1 *

1 table, 4 chairs, 1 infodesk, 1 locker, 1x1 closed room, floor mat, 1 group socket, 1 garbage bin, electricity and lighting (2 tables + 8 chairs are available in stands over 20 m², 2x1 closed room is optional)

EXHIBITION SPACE + MODEL-2 *

1 table, 4 chairs, 1 infodesk, 1 locker, 1x1 closed room, floor carpet, 1 group socket, 1 dustbin, electricity and lighting (stands over 20 m² have 2 tables + 8 chairs, upon request, 2x1 closed room applied)

EXHIBITION SPACE + MODEL-3 *

1 glass table, 4 chairs, 1 bar info table, 4 bar chairs, 1 locker, 1x1 closed room, white laminate raised floor, partial tulle ceiling application, 1 brochure holder, 1 group socket, 1 dustbin, electricity and lighting (stands over 20 m² include 2 glass tables + 8 chairs, closed room 2x1 is applied upon request)

* In your exhibition area + Installation preference; Request a quote for the stand model you choose and the participation fee.
