

Exhibitions of Life Sciences

BIOEXPO 2023 Life Sciences Fairs hosted visitors and participants at ICEC-Istanbul Lütfi Kırdar Fair and Congress Center on 25-27 October 2023.

The fair, which included participating companies offering products and services in the fields of cleanrooms, laboratory systems, pharmaceutical industry and biotechnology, was watched with interest by 3543 professional visitors for three days. 86% of visitors were members of sectors and industries directly involved in relevant matters. Professional and scientific events held simultaneously with the fair were watched with interest by both fair visitors and participating organization officials. BIOEXPO created the science-technology-industry-based Ecosystem of the Life Sciences fields with the richness and diversity of the product exhibits of the fair participant companies throughout the fair, their product promotions, presentations and training programs both in the presentation halls and special areas of the fair.

BIOEXPO Fair and Events were officially supported by many professional organizations and institutions this year. Marmara University Faculty of Pharmacy, Boğaziçi University Biotechnology Institute, Turkish Health Institutes Directorate TÜSEB, Turkish Medicines and Medical Devices Agency TİTCK, Turkish Scientific and Technological Research Council TÜBİTAK, Social Security Institution-SGK, Cleanroom Technologies Association, Research-Based Pharmaceutical Companies Association-AİFD, Turkey Various institutions, especially the Pharmaceutical Industry Association-TİSD, both officially supported the fair and added a different dimension to the fair with the events and programs they organized.

Fair visitors:

- 86% directly registered as industry professionals,
- 82% were people looking for products and solutions in the pharmaceutical industry, laboratory, cleanrooms and biotechnology fields,
- 88% were decision makers.

At BIOEXPO 2023 Fields of activity & professional groups

Branches of science in biology	263
Biotechnology fields and experts	228
Cleanroom & Laboratory experts	358
Chemical Engineers & Chemists	355
Engineering disciplines	226
Medical professionals	208
Pharmacology experts	230
R&D experts	281
Technician & Laboratory & Technical support	431
Academician	281
Industry professionals	503
Students of specializations	180
Total Visitors	3543

LIFE SCIENCES PLATFORM

Laboratory Industry

Analytech

Advanced technologies, developments, applications and know-how at the Analysis and Laboratory Technologies stands... Experts who produce equipment and services for applications within the scope of analysis technologies, from the pharmaceutical and health industries to the chemical and production industries, came together at the "technology and expertise fair" of the subject in Turkey. The LAB industry, which spans an extremely wide sectoral area, presented and exhibited in front of industry experts with its most advanced know-how and applications, from basic research and development activities to the latest products produced with advanced technology.

Among the visitors;

358 Laboratory specialists

355 Chemical Eng. & Pharmacist

431 Laboratories and Technicians

Biotechnology Industry

Biotecnica

Biotechnology experts who produce technology and services for the applications of Biotechnology and Life Sciences in different industries came together within the scope of BIOEXPO/Biotecnica, the subject's expertise platform in Turkey. They presented the industrial application techniques and expertise developed by biotechnology for different sectoral fields, from education to industry, from health to energy, from laboratories to production processes, with various exhibitions and events at the fair.

Among the visitors; 228 Biotechnology experts 263 Biologists 230 Pharmacologists

Cleanroom Industry

Cleanroom technologies, Cleanroom experts who produce technology and services for the Cleanroom areas of industrial facilities, came together at the only fair of the subject in Turkey.

BIOEXPO/Cleanroom Fair this year also covers everything from project planning to investment; It covered facility managers and Cleanroom professionals, product and service technologies of the Cleanroom industry throughout the entire process from production to control and management, and fulfilled an important network function in this field. In addition to the rich products, services and technologies exhibited, the conferences, meetings and technical presentation environments held during the fair brought Cleanroom experts and facility managers together at BIOEXPO/Cleanroom Fair within the framework of this information network.

Among the visitors;

358 Cleanroom experts

226 Engineer experts

281 R&D experts

431 Technicians

Scientific and Industrial Events

Symposiums

National and International
 Conventional and Biotechnological
 Drug Production Strategies and
 Supply Chain Symposium

► GMP Annex 1 Guide 2022 Revision and Changes in Practice Symposium, brought together public authority, academy and industry professionals for 3 days with 25 sessions and contributions from more than 80 speakers.

Seminars

Seminars on the Role of Artificial Intelligence in Drug Development were completed with the narration of internationally experienced experts.

Business Development Meetings New ideas and new

formations in thematic areas were discussed at the meetings. Ideas paved the way for new collaborations.

OpenLAB Education Platform

With the OpenLAB trainings given by experts in special classes on 8 different subjects, especially young scientists and industry professionals gained very important information about methods and concepts that they can always use in their careers.

In the BioQuest Knowledge Competition, which aims to instill team spirit in young scientists and show the value of knowledge, 14 teams from different provinces and schools competed with the data provided by industry representatives and their own theoretical knowledge.

CORPORATE COLLABORATION, CONTRIBUTIONS, SPONSORS

To BIOEXPO 2023; to all stakeholder institutions and organizations that give strength with their corporate cooperation and support, and to their valuable members who contribute their efforts to this organization, we thank you.
