Post Show Report

We create synergy through
the collaboration of sectors
and institutions in the Science,
Technology and Industry ecosystem.

**15-17
October
2025**

Thanks

BIOEXPO 2025 aims to bring together all academic disciplines, industrial sectors, areas of expertise and technologies in the field of life sciences, and is organized with various events to create a professional network environment among all sectors and disciplines; giving strength with their collaboration and support, contributing with their sponsorships, sharing their products and technologies with all audiences through their stand participation, transferring their knowledge to the audience with their presentations at events, and accelerating the dynamism of the sectors with their visits; We would like to thank all institutions and organizations, industry professionals and experts, and valuable members of the academic world.

bioexpo[®]

LIFE SCIENCES ECOSYSTEM

**Laboratory
Industry**

**Biotechnology
Industry**

 **Analytech**

 **Biotechnica**

Four important sectors in the field of Life Sciences, which incorporate advanced technologies, came together at BIOEXPO, creating an active ECOSYSTEM of life sciences, with sector experts and industries sharing knowledge and creating business volume.

 **PharmaNEXT**

 **Cleanroom**
EXHIBITION

**Pharmaceutical
Industry**

**Cleanroom
Industry**

A platform that conveys science, technology, and knowledge sharing to its visitors and viewers with a **smile**; and creates the most productive business environment in its sectors with this high **synergy**...

BIOEXPO: An '**Ecosystem**' that brings together Science, Technology and Industry...

Why an Ecosystem?...

For consistently presenting the industry's leading brands, associations, and technologies to life sciences experts and professionals with innovative developments;

for bringing together the life sciences disciplines of the scientific and academic worlds in its traditional symposiums every year;

for bringing together public institutions and administrative managers that regulate sectors and operations in various presentations and meetings!

Summary Result of 2025

BIOEXPO 2025 Life Sciences Fairs hosted visitors and participants at ICEC-Istanbul Lutfi Kirdar Fair and Congress Center on 15-17 October 2025.

The fair, which included participating companies offering products and services in the fields of cleanrooms, laboratory systems, pharmaceutical industry and biotechnology, was watched with interest by 4620 professional visitors for three days. 94% of visitors were members of sectors and industries directly involved in relevant topics. Professional and scientific events held simultaneously with the fair were watched with interest by both fair visitors and participating organization officials. BIOEXPO created the **SCIENCE-TECHNOLOGY-INDUSTRY**-based Ecosystem of Life Sciences fields with the richness and diversity in the product displays of the fair participant companies throughout the fair, product promotions, presentations and training programs made both in the presentation halls and special areas of the fair.

This year, the BIOEXPO Fair and Events received official support from numerous professional organizations and institutions. In addition to the Scientific Cooperation of Marmara University's Faculty of Pharmacy and contributions from numerous universities, various public institutions and industry associations, including the Turkish Institutes of Health (TÜSEB), the Turkish Pharmaceuticals and Medical Devices Agency (TİTCK), the Scientific and Technological Research Council of Turkey (TÜBİTAK), and the Cleanroom Technologies Association, notably provided official support for the fair and added a unique dimension to it with their events and programs.

Fair visitors:

- 94% directly registered as industry professionals,,
- 72% were people looking for products and solutions in the pharmaceutical industry, laboratory, cleanrooms and biotechnology fields,
- 80% were decision makers.

At BIOEXPO 2025 Fields of activity & professional groups

Branches of science in biology	318
Biotechnology fields and experts	341
Cleanroom & Laboratory experts	496
Chemical Engineers & Chemists	352
Engineering disciplines	277
Medical professionals	182
Pharmacology experts	310
R&D experts	264
Technician & Laboratory & Technical support	460
Academician	242
Industry professionals	822
Students of specializations	556
Total Visitors	4620

4040 exhibition visitors
580 registered event
delegates

4338 domestic,

SYMPOSIUM

►The Pharmaceutical Technologies and API Symposium;

brought together public authorities, academia, and industry professionals in 13 sessions over two days, with contributions and presentations from expert speakers. Throughout the symposium, comprehensive information was shared on specific areas such as pharmaceutical industry manufacturing strategies, personalized medicine, biotechnological drugs, API and supply chain, and artificial intelligence support for rare diseases.

SEMINARS

At various seminars held as part of the events, attendees attended workshops on business development and experience sharing, "Dark Factory" technologies, and technical presentations from various industry companies.

PANELS WORKSHOPS

Current topics such as health technologies, targeted treatments, artificial organ technologies, and 'Blockchain' in life sciences, for which presentations were prepared by various universities, were conveyed to the audience in all their aspects.

Business Development Meetings

New ideas and new formations in thematic areas were discussed at the meetings. These ideas paved the way for new collaborations.

Traditional Bioexpo Pharmaceutical Symposium...

Scientific Collaboration

Supporting Institutions

► Pharmaceutical Technologies and API Symposium;

This year, on October 15-16, 2025, the symposium brought together public authorities, academia, and industry professionals for 13 sessions over two days, featuring contributions and presentations from expert speakers. Throughout

the symposium, comprehensive information was shared on specific areas such as pharmaceutical industry manufacturing strategies, personalized medicine, biotechnological drugs, API and supply chain, and artificial intelligence support for rare diseases. The symposium featured sessions and speakers on current topics:

1st day

15/10/2025, WEDNESDAY

10:30-11:00 Opening Speeches

- Prof. Dr. Ali Demir SEZER, Marmara University Faculty of Pharmacy
- Prof. Dr. Fatma Duygu Özel DEMİRALP, President of the Turkish Biotechnology Institute
- Eray KAPLAN, TITCK Vice President

11:00-11:30 TITCK Session

Human Medicinal Products Manufacturing Plants, Good Manufacturing Practices (GMP) Guide-Annex 22 Artificial Intelligence Draft
Eray KAPLAN, TITCK Vice President

11:30-12:30 Thematic Session / Biotechnological Medicines from R&D to Production

Moderator: Prof. Dr. Ali Demir SEZER, Marmara University Faculty of Pharmacy

- Dr. Pharmacist Onur PINARBAŞLI, ILKO Pharmaceutical - R&D Director
A Turning Point in Biosimilars: Master Cell Banking and Clinical Exemption
- Dr. Bilgen DÖLEK UÇAROL, AMGEN Turkey - Market Access and Health Policy Leader
- Ali ÖZUER, AbdiBio Group President
Biotechnology and AbdiBio in Turkey: Our Achievements in the Last 3 Years
- Dr. Hasan Ersin ZEYİN, Yerlika CEO
A New Era in Biosimilars: How Can Clinical Trial Exemptions Transform Turkey's Domestic Production Targets?

14:00-14:30 AMGEN Satellite Session

The Clinical Journey Shaping the Future: Technology, People, Vision
• Dilek ÖZCAN EKŞİ, AMGEN Turkey - Senior Manager of Development Operations

14:30-15:20 TUSEB Session

Current Personalized Medicine Applications with Genomic Approach
• Prof. Dr. Fatma Duygu ÖZEL DEMİRALP, President of the Turkish Biotechnology Institute

15:40-16:10 Sanofi Satellite Session

Journey from Big Data to Early Diagnosis in Rare Diseases with Artificial Intelligence Support
Moderator: Dr. Hasan Berk BARIŞÇIL, SANOFI - Medical Director for Rare Diseases

- Mert ÖZCAN, SANOFI - Head of Asset Management Information Systems Department
- Doç. Dr. Engin KÖSE, Ankara University Department of Pediatric Metabolism

16:10-17:30 Thematic Session / Clinical Research and Artificial Intelligence in Biotechnological Drugs

Moderator: Prof. Dr. Yağız ÜRESİN, Istanbul University

- Umut MÜREN, Sanofi - Turkey and Middle East Countries Clinical Research Unit Director
- Birkan AVER, Pfizer Turkey - Medical Area Manager in the Primary Health Care Category
- Uzm.Dr. Çağatay ÇİTİRİK, Sandoz - Senior Medical Manager

Traditional Bioexpo Pharmaceutical Symposium...

Scientific Collaboration

Eczacılık Fakültesi

TITCK

2nd day

16/10/2025, THURSDAY

10:20-10:30 Thematic Sessions Opening Remarks

- Prof. Dr. Ali Demir SEZER, Marmara University Faculty of Pharmacy
- Hasan Selçuk SELEK, TUBITAK TEYDEB Vice President
- Prof. Dr. Ahmet AYAR, President of TITCK

10:30-11:20 Artificial Intelligence-Based Drug Development

- Moderator: Prof. Dr. Hasan TÜRKEZ, Vice Rector of Ataturk University
- Cem ÖZTÜRK, President of Association of Research-Based Pharmaceutical Companies (AIFD) & President of Sanofi-Turkey
 - Prof. Dr. Adil MARDİNOĞLU, KTH-Royal Institute of Technology & King's College London
 - Dr. Duygu DAĞLIKOCA, Trustlife Ventures R&D Center General Manager

11:20-12:10 Thematic Session / API and Excipient Production and Supply Chain in Conventional Medicines

- Moderator: Adil KAYA, ATABAY Pharmaceuticals - Director of Public and Academic Relations
- Berkay BOZKUŞ, Eczacıbaşı Healthcare Group Supply Chain Director
 - Deniz ALKANAT, BPEG Consulting General Manager
- GMP Perspective in API Production and High Activity API Production Technologies*

12:10-12:50 TUBITAK Session / R&D Ecosystem and Supports in Biotechnological Drugs

- Işık AŞAR, TUBITAK TEYDEB - Deputy BIOTEG Group Coordinator
- TEYDEB Support for the Private Sector*
- Dr. Pharmacist Övgü ÇELİKLER ÖZER, TUBITAK ARDEB-SBAG Scientific Programs Chief Specialist
- ARDEB Academic R&D Supports*

14.00-14.40 Thematic Session / Financing and Sustainability of Health Services in the Vision of Productive Health

- Moderator: Prof. Dr. Zafer ÇALIŞKAN, Hacettepe University Department of Economics
- Prof. Dr. Yusuf ÇELİK, Acıbadem University Department of Health Management
 - Prof. Dr. Zafer ÇALIŞKAN, TUSEB
 - Assoc. Prof. Dr. Güvenç KOÇKAYA, Econix Research

14:40-15:20 IBG Izmir Session / Biotechnological Drug Development Processes

- Moderator: Prof. Dr. Mehmet İNAN, Director of Izmir Biomedicine and Genome Center
- Prof. Dr. Mehmet İNAN - *Drug Development from Antigen to Antibody*
 - Pharmacist Ayşegül Demirtaş - *Preclinical Studies in Biotechnological Drugs*
 - Dr. Melek Üçüncü - *GMP Approach to Cell/Tissue Therapy Products*
 - Questions and Answers

15:20-16:20 Conventional Drug Production and Market Access from Synthesis to Finished Product

- Moderator: Assoc. Prof. Dr. Devrim Demir DORA, Akdeniz University
- Dr. Ümit DERELİ, AIFD Secretary General
 - Vedat EĞİLMEZ, IEIS Public and Academic Relations Coordinator
 - Op. Dr. Sami TÜRKOĞLU, TISD Secretary General

To talk about the **future**, not the present...

- ▶ Artificial Intelligence Support in Rare Diseases
- ▶ Personalized Medical Technologies
- ▶ Artificial Intelligence and Biotechnological Drugs
- ▶ Future Technology: “Dark Factories”
- ▶ Targeted Approaches to Cancer Treatment
- ▶ The Importance of Blockchain for Life Sciences in the Future
- ▶ Longevity and Personalized Biotechnologies

These important topics of the future were discussed in full detail by scientists, experts and regulatory authorities at Bioexpo 2025.

We specially thank all participant institutions and official organizations that supported and gave their valuable efforts for the great success of BIOEXPO 2025 in a professional manner.
